

220V Lithium-ion Battery Energy Storage Cabinet for Intelligent Buildings

Overview

Industrial-grade lithium ion battery cabinet featuring advanced thermal management, intelligent BMS, and modular design for reliable, scalable energy storage solutions. Ideal for renewable energy integration and power backup applications. The Vertiv™ EnergyCore Li5 and Li7 battery systems deliver high-density, lithium-ion energy storage designed for modern data centers. Purpose-built for critical backup and AI compute loads, they provide 10–15 years of reliable performance in a smaller footprint than VRLA batteries. This sophisticated system integrates advanced battery modules, intelligent monitoring systems, and robust safety features within a compact, climate-controlled. Protect your facility and your team with Securall's purpose-built Battery Charging Cabinets—engineered for the safe storage and charging of lithium-ion, lead-acid, and other rechargeable batteries.
