

36-core optical fiber direct fusion fiber optic box

Overview

The GP-T408 is an IP43-rated indoor fiber optic floor terminal box for FTTx networks, supporting 36 fiber splices, 2 inlets, and 12 outlets for efficient cable management. The product can meet the requirements of optical cable oval uncut installation, and meet the requirements of large number of core optical cable fusion and entering the home. Water-proof design with IP65 protection level. Designed to. This 36 Cores Fiber Optic Distribution Metal Box with internal structural parts, optical fiber connector, optical splitter (optional) and accessories, can be installed in wall, pole and other positions. There are two connection. Grandway's Fiber Termination Box provides a high density wall mounted solution for next generation networks, which aims to provide and manage maximum numbers of fiber termination in a limited space.
