

A full range of Middle Eastern electrical distribution boxes are available

AI Overview

A full range of electrical distribution boxes is available in the Middle East, designed to meet extreme environmental conditions, local regulations, and diverse industrial and residential needs.

Product Range and Features

Middle Eastern distribution boxes are available in residential, commercial, and industrial variants, offering robust protection for circuit breakers, fuses, and internal wiring. They are constructed from high-impact carbon steel, stainless steel, or thermoplastic, ensuring durability against mechanical stress, corrosion, and harsh climates . Key features include:

- Weatherproof and Dustproof:** IP65/IP66 ratings prevent water, dust, and sand ingress .
- Modular Design:** Supports DIN-rail mounting for MCBs, RCDs, and surge protectors, simplifying installation .
- Corrosion Resistance:** Advanced powder coating or stainless steel passivation ensures long-term performance in humid or corrosive environments .
- Thermal Management:** Integrated fans, louvers, and air conditioning solutions maintain internal temperature in extreme heat .
- Customization:** Tailored dimensions, internal layouts, cable entry points, and optional smart modules for real-time monitoring of voltage, current, and temperature .

Environmental Adaptation

The Middle East presents extreme temperatures exceeding 50°C, high dust levels, and significant day-night temperature variations, which can affect electrical components. Distribution boxes are engineered to withstand these conditions, with UV-resistant coatings, triple-layer protection, and corrosion-resistant materials . Stainless steel models with anti-microbial coatings are also available for sensitive environments like hospitals .

Compliance and Safety

Products are designed to meet international and regional standards, including IEC 61439-1, UL 67, CE certification, and local SASO regulations . Safety features include earth bonding, flame-retardant materials, lock...
