

ASEAN Galvanized Mesh Cable Tray Manufacturer

AI Overview

Top ASEAN manufacturers of galvanized mesh cable trays include SAN Engineering (Malaysia), NK Synergy (Malaysia), and Ferrotech (Singapore), offering high-quality, corrosion-resistant solutions for industrial and commercial applications.

Leading Manufacturers in ASEAN

- 1. SAN Engineering (Malaysia)** SAN Engineering specializes in hot-dip galvanized (HDG) cable trays made from top-grade steel, providing excellent corrosion resistance and durability. Their products include perforated, ladder, and wire mesh trays suitable for industrial, commercial, and infrastructure projects. The trays are designed for efficient cable routing, easy maintenance, and long-term performance, with additional finishes like zinc, PVC, and epoxy for enhanced protection.
- 2. NK Synergy (Malaysia)** NK Synergy offers a versatile range of cable trays, including pre-galvanized, hot-dip galvanized, and powder-coated options. Their wire mesh trays are ideal for data centers, telecommunications hubs, and commercial buildings, providing flexibility for cable rerouting and airflow to prevent overheating. They also supply ladder and perforated trays for heavy-duty industrial environments such as power plants and oil refineries.
- 3. Ferrotech (Singapore)** Ferrotech manufactures wire mesh cable trays using zinc-plated, hot-dip galvanized, or stainless steel wire. These trays are designed for light cables in data centers, hospitals, pharmaceutical, and food processing industries. Their galvanized mesh trays offer strength, durability, and corrosion resistance, making them suitable for sensitive and high-demand environments.

Key Features of Galvanized Mesh Cable Trays

- Corrosion Resistance:** Hot-dip galvanization or zinc plating protects against rust and environmental damage.
- Durability:** High-grade steel construction ensures long-lasting performance in industrial and commercial settings.
- Efficient Cable Management:**
