

Cable Grating Tray Price

AI Overview

Cable tray grating prices vary widely depending on material, type, and size, typically ranging from \$10 to \$50 per meter for standard industrial trays.

Price Range and Factors

The cost of cable tray grating depends on several factors:

- Material:** Common materials include galvanized steel, stainless steel, aluminum, and electroformed steel. Galvanized steel is generally more affordable, while stainless steel and specialized coatings for corrosion resistance increase the price.
- Type:** Ladder-type, perforated, and solid-bottom trays differ in cost. Ladder-type trays are often the most cost-effective, while perforated or grating trays with full containment or fire-resistant features are more expensive.
- Dimensions and Load Capacity:** Wider trays or those designed to carry heavier cable loads cost more. Custom sizes or heavy-duty specifications also increase pricing.
- Finish and Coating:** Hot-dip galvanization, powder coating, or epoxy finishes for outdoor or corrosive environments add to the cost.

Typical Price Examples

- Standard ladder-type galvanized steel tray: approximately \$10–\$20 per meter.
- Perforated or grating cable tray: approximately \$20–\$35 per meter.
- Heavy-duty or stainless steel grating tray: can range from \$35–\$50 per meter or higher depending on specifications.

Suppliers and Manufacturers

- Hind Runway Systems:** Offers ladder-type, perforated, and grating trays with custom specifications in Telangana, India.
- Rudra Corporation:** Manufactures metal grating and cable trays, including 45mm grating and custom bends.
- Vinfab Engineers:** Provides electroformed gratings and galvanized cable trays with optional galvanizing services.
- Alibaba and IndiaMART:** Platforms for bulk orders and price comparison across multiple suppliers.

When purchasing, it is recommended to request quotes based on exact dimensions, material, and load requirements to get accurate pricing. Bulk orders or long-term contracts may also reduce per-meter costs.
