

Cable tray and bracket fixing accessories

AI Overview

Cable tray accessories, including brackets, hangers, couplers, and fixings, are essential for supporting, securing, and routing cables efficiently in various tray systems. Overview of Cable Tray Accessories Cable tray accessories are components used to support, connect, and organize cables within a cable tray system. They are crucial for maintaining safety, preventing cable damage, and ensuring a neat installation in commercial and industrial environments . Common accessories include:

- Brackets and Supports:** Used to secure cable trays to walls, ceilings, or other structures. They provide stability and maintain the correct alignment of the tray.
- Hangers:** Designed to support horizontal runs of cable trays from overhead structures, ensuring proper load distribution.
- Couplers and Connectors:** Facilitate the joining of two tray sections, including straight couplers, tees, and crosses, allowing for directional changes in cable routing.
- Fixings and Fasteners:** Nuts, bolts, and clips that secure trays and accessories in place, compatible with various tray sizes and studding types.
- Covers and Protective Fittings:** Solid or ventilated covers protect cables from dust, water, and falling objects, especially in ladder or ventilated tray systems.

Types of Cable Trays and Accessory Compatibility

- Solid-Bottom Trays:** Provide maximum cable protection; accessories like cutters and entry/exit fittings are used to feed cables through openings.
- Ventilated Trays:** Feature openings for airflow; slots or holes may be added for smaller cables.
- Ladder Trays:** Support cables on traverse bars; solid covers and protective fittings are used to shield cables.
- Basket Trays:** Lightweight and flexible; accessories include brackets, bends, tees, and crossovers for secure cable routing.

Material and Duty Considerations

Cable tray accessories are available in heavy-duty, medium-duty, or light-duty strengths, and in various materials and coatings to suit environmental conditions, including industrial, commercial, and marine applications . Steel basket tray accessories, for example, a...
