

Cable tray fixing and raising bracket

AI Overview

Cable tray fixing and raising brackets provide secure support, proper spacing, and overhead suspension for cable trays, ensuring stable and organized cable management.

Types of Brackets

- Stand-Off Brackets:** These are used to mount cable trays or baskets at a specific distance from walls or surfaces, providing clearance for airflow and maintenance. Sizes typically range from 50mm to 300mm, and they are made from pre-galvanized or hot-dipped galvanized steel for durability and corrosion resistance.
- G Hanger Support Brackets:** Designed for overhead support, these brackets hold cable trays, trunking, or baskets from ceilings. They come in sizes such as 100mm, 150mm, and 225mm, offering heavy-duty rigidity and easy installation.
- Trapeze Support Brackets:** Pre-assembled for quick installation, trapeze brackets support cable trays with various widths and drop lengths. They are ideal for suspending multiple trays in parallel and are available in widths like 100mm and 150mm with drop lengths up to 500mm.
- Mounting Brackets:** These versatile brackets allow cable trays to be fixed to walls, ceilings, or floor structures. They can accommodate curves, slopes, and tees in cable routing, ensuring flexibility in complex installations.

Materials and Construction

Brackets are typically made from pre-galvanized steel, hot-dipped galvanized steel, or stainless steel (A316/A4) to provide long-term strength, rigidity, and corrosion resistance. Heavy-duty designs prevent sagging and slipping, ensuring the cable tray system remains stable over time.

Installation Considerations

- Spacing:** Brackets should be installed at intervals recommended by the cable tray manufacturer, usually every 1.5 to 3 meters for horizontal runs, depending on tray type and load.
- Alignment:** Ensure brackets are level and aligned to maintain a straight tray run and prevent cable stress.
- Overhead Support:** Use G hangers or trapeze supports for ceiling-mounted trays to maintain proper clearance and avoid interference with other services.
- Load Capacity:** Select b...
