

# Complete Guide to Cable Trays in the UAE

## AI Overview

The UAE has several reputable manufacturers and suppliers of cable trays, offering a wide range of types, materials, and custom solutions suitable for commercial, industrial, and infrastructure projects.

**Leading Cable Tray Manufacturers and Suppliers**

- Unigroup** – Offers perforated, ladder, wire mesh, and GRP cable trays engineered for modern infrastructure. Their trays are manufactured in the UAE to international standards, providing corrosion and fire resistance, ease of installation, and long-term reliability.
- Metar** – Specializes in steel cable trays including mild steel, pre-galvanized, hot dip galvanized (HDG), and powder-coated finishes. They supply perforated, ladder, and heavy-duty systems suitable for indoor, outdoor, coastal, and industrial environments across Dubai, Abu Dhabi, Sharjah, and other Emirates.
- West Port** – Provides premium cable management systems including perforated, ladder, and solid bottom trays, along with accessories like bends, reducers, elbows, and covers. Their products are designed for durability and compliance with UAE regulations, supporting sectors like data centers, construction, and oil & gas.
- Hutaib Electricals** – Manufactures and supplies ladder, perforated, wire-mesh, and heavy-duty cable trays with custom sizes, bends, and powder-coated finishes. They offer materials suitable for high-humidity and coastal environments, including HDG, stainless steel 316, and marine-grade aluminum.

**Types of Cable Trays**

- Ladder Type** – Ideal for heavy loads and long spans, providing excellent ventilation.
- Perforated** – Suitable for medium loads, offering airflow and cable protection.
- Wire Mesh/Basket** – Lightweight, flexible, and ideal for IT/ELV cabling.
- Solid Bottom** – Provides maximum protection for sensitive cables like fiber optics.
- GRP/FRP** – Lightweight, corrosion-resistant, and suitable for chemical or outdoor environments.

**Considerations for UAE Projects**

**Climate Resilience** – Materials and finishes must withstand high heat, humidity, and coastal salt exposure. HDG or stainless steel 316 is recommended for...
