

Comprehensive Price List for Cable Tray Accessories

AI Overview

Cable tray accessories typically range from \$2 to \$25 per unit or per meter, depending on material, type, size, and finish.

Overview of Cable Tray Accessories

Cable tray accessories include couplers, bends (90° and 45°), tees, crossovers, supports, hangers, and lids, which are essential for connecting, supporting, and routing cable trays in commercial, industrial, and residential installations. Accessories are designed to match the tray type—light, medium, or heavy duty—and the material, such as galvanized steel, stainless steel, aluminum, or plastic.

Typical Price Ranges

Couplers and straight connectors: \$2–\$15 per piece, depending on material and load capacity. Bends (90° or 45°): \$5–\$20 per piece, with hot-dipped galvanized or stainless steel options costing more. Tees and crossovers: \$10–\$25 per piece, influenced by size and material. Supports and hangers: \$3–\$15 per unit, depending on design and load rating. Lids and covers: \$5–\$20 per meter or per section, depending on tray width and material.

Factors Affecting Prices

Material Type: Galvanized steel is cost-effective and durable, stainless steel is corrosion-resistant but more expensive, aluminum is lightweight and rust-proof, and plastic is budget-friendly but limited to light loads.

Surface Finish: Hot-dipped galvanization (HDG) increases durability and cost, pre-galvanized is cheaper, and powder coating adds protection and color options.

Tray Size and Load Capacity: Larger or heavy-duty trays require more material, increasing accessory costs.

Order Quantity: Bulk orders can reduce prices by 20–40%.

Installation and Location: Labor, accessibility, and site conditions can add to total costs.

Market Insights

The global cable tray market is growing due to infrastructure development, data center expansion, and renewable energy projects, which drives demand for high-quality accessories. Prices may vary...
