

Denmark Explosion-proof Distribution Box Specifications

Overview

Explosion-proof Power Distribution Panel MAMX-02 and MAMX-03 * In-built circuit breaker, AC Contactor, Thermorelay, PLC, Transducer, Soft starter and other components, The panel can install indicator, Pushbutton, Universal switch, Display instrument. * Rated current:.. An explosion-proof distribution box is a complete distribution unit designed to house switches, instruments and other equipment in a centralised manner, preventing explosions at the installation site caused by sparks, arcs or high temperatures. Currently, this unit has become an indispensable.

- Flameproof enclosure (Ex db), which can be used as feed distribution equipment in control and distribution system (such as distribution box, switch box of main circuit, control box, terminal box or motor starting box etc.) Enclosure: 304 stainless steel, 316L stainless steel and Q235.
- Equipped. Internal Arrangement: Electrical components and wiring within the box must be neatly organized, clearly labeled, and aesthetically arranged for ease of maintenance. All wires must have intact insulation without any damage. Equipped with specialized hinge.

Warom Explosion proof Distribution Box (Ex d IIB+H2) in 316 stainless steel. * Rated current: 1500A * Steel pipe or Cable.
