

East Africa Cable Tray Price Quote

AI Overview

Cable tray prices in East Africa vary widely depending on material, size, and supplier, typically ranging from \$10 to \$150 per meter for standard trays.

Factors
Material: Cable trays are commonly made from galvanized steel, stainless steel, aluminum, or wire mesh. Aluminum and stainless steel trays are more expensive due to corrosion resistance and durability, while galvanized steel is more affordable. Wire mesh trays are often mid-range in price.

Size and Load Capacity: Wider trays or those designed to carry heavier cables cost more. Standard widths range from 100mm to 600mm, and prices increase with width and thickness.

Type of Tray:
Ladder trays: Suitable for heavy-duty applications, generally higher priced.
Solid-bottom trays: Used for sensitive cables, moderately priced.

Wire mesh trays: Lightweight and flexible, often mid-range in cost.
Accessories: Bends, tees, reducers, and supports add to the total cost. A complete installation package can significantly increase the overall price.

Suppliers in East Africa
East African Cables: Offers a range of power distribution and cable management products across Kenya, Uganda, and Tanzania, though specific cable tray prices are not listed online.

Jumia Kenya: Provides online purchasing options for East African cables and related accessories, with competitive offers and delivery services.
Regional Electrical Suppliers: South African suppliers like Liteglo and Online Electrical provide cable trays and accessories, which can be shipped to East Africa, though shipping costs may apply.

Estimated Price Range
Galvanized steel trays: \$10–\$40 per meter
Aluminum trays: \$30–\$80 per meter
Stainless steel trays: \$50–\$150 per meter
Wire mesh trays: \$20–\$60 per meter

Prices fluctuate based on import duties, local taxes, and supplier discounts, so contacting suppliers directly is recommended for accurate quotes.

Recommendations
Request formal quotations from multiple suppliers to compare prices.
Consider bulk purchases to reduce per-meter costs.
