

East Asia Fiber Optic Connector Price Quote

AI Overview

Fiber optic communication equipment in East Asia ranges widely, with patch panels, cables, and media converters typically priced from \$10 to several hundred dollars depending on specifications and volume.

Overview of Equipment and Pricing

Fiber Optic Cables Single-mode and multi-mode cables are widely available. Prices for standard indoor/outdoor cables start around \$0.50-\$2 per meter for basic types, while armored or direct-burial cables can cost \$3-\$10 per meter depending on specifications and protection features (e.g., water-blocking gel, steel tape armoring).

Fiber Patch Panels Compact DIN rail or rack-mounted panels with LC or SC adapters typically range from \$50 to \$200 per unit, depending on capacity (e.g., 12-48 ports) and material quality.

Media Converters and Optical Transceivers Basic fiber-to-Ethernet media converters are priced around \$30-\$100 each, while higher-speed or industrial-grade models can reach \$200-\$500.

Testing and Maintenance Equipment Optical Time Domain Reflectometers (OTDRs) and power meters are essential for network maintenance. Entry-level OTDRs start at \$1,000-\$2,500, while professional models for large-scale deployments can exceed \$10,000.

Supplier Options in East Asia

Alibaba and Made-in-China: Offer a wide range of factory-priced fiber optic equipment, including bulk orders and OEM customization. Prices are competitive, and suppliers often provide quotes for large-volume purchases.

FiberTek: Specializes in fiber patch panels, cables, and test equipment, with products suitable for harsh environments and high-density installations.

FiberHome International Technologies: Focuses on advanced telecommunication solutions, including AI-driven network infrastructure and ultra-efficient fiber systems, suitable for large-scale deployments.
