

Fiber Optic Cable Netting Factory in Democratic Republic of Congo

Overview

Genew Technologies and Zhongshi Wosen, both Chinese companies, will help the Democratic Republic of Congo (DRC) build its fiber optic network. Its main product is the internet for professionals. Thus, it offers services mainly in optical fiber, Vsat and wimax to large companies in sub-Saharan Africa and particularly in the Democratic. It is governed by the Uniform Act revised on January 30, 2014 relating to the law of Commercial Companies and Economic Interest Grouping and by all other laws and regulations in force in the DRC, not contrary to OHADA law, as well as by its present statutes. Guarantee open, transparent and. Taihan Fiberoptics worked on the local construction for about one year and succeeded in building the 620km long fiber optic cable that connects the capital of Congo, Kinshasa and the west coast city, Muanda. This project will form the foundation for the digital transformation in DRC. Un mois de sensibilisation au cancer du sein, pour rappeler l'importance du dépistage, soutenir les personnes. □□ Au Japon, précisément a Tokyo, un homme a pris un taxi pour se rendre dans une institution.
