

Fiber optic cable from a Finnish telecommunications company

AI Overview

Key Finnish companies offering fiber optic cables and related telecommunications services include Fiber Highway Finland Oy, Orbis Oy, Naficon Liitin Oy, and Nestor Cables. Fiber Highway Finland Oy specializes in fiber optic technology and network services, particularly for data centers. Their offerings include cabling, connectivity, terminals, defect corrections, and certified testing. They provide project management and installation services for international service providers, telecommunications companies, and data center developers. Offices are located in Porvoo and Hamina, and the company emphasizes high-security telecommunications solutions and comprehensive service packages from design to implementation. Orbis Oy Founded in 1949, Orbis Oy is a long-established Finnish company providing fiber optic and RF technologies. They manufacture custom-made fiber optic cables, pre-assembled cable products, hybrid cables, connection boxes, panels, and cabinets. Orbis serves major telecommunications operators in Finland and offers tools and equipment for fiber optic installation, including splicing machines and cleaning tools. Their production emphasizes high-quality craftsmanship, fast delivery, and flexible customization, making them suitable for both standard and specialized applications. Naficon Liitin Oy Naficon Liitin focuses on passive fiber optic products for telecommunications, such as pigtails, patch cords, and multifiber cables. With over 30 years of experience, the company is recognized for quality and customer-centric design, serving clients across Finland. Nestor Cables Nestor Cables manufactures a wide range of fiber optic cables and accessories, including solutions for microduct networks. They are known for innovative cable technologies that support modern communication needs and nationwide telecom infrastructure. Summary These Finnish...
