

Fifteen-channel waterproof distribution box

Overview

15-way waterproof distribution box with side-opening hinged cover for convenient wiring and maintenance. ABS base + PC transparent cover, reinforced lock buckle, rated IP65 for dustproof and waterproof reliability. Ideal for residential, commercial, and PV combiner box applications with fuse, SPD. A distribution box (also known as panelboard, breaker panel, electric panel, or DB box) is a component of an electricity supply system, which divides an electrical power feed into subsidiary circuits while providing a protective fuse or circuit breaker for each circuit in a common enclosure. excellent electrical performance and surface gloss, etc. Protection grade: IP65
Application: Suitable for indoor and outdoor electric, communication, fire fighting apparatus, iron and steel smelting. The Waterproof Electrical Distribution Box, with its high-definition transparent cover, is a transparent panel that not only allows for easy monitoring of the internal components, but also enhances the overall aesthetics, making it perfectly suited for functional applications. DIN-rail ready for MCB/RCD/RCBO; neutral/earth bars optional. ABS enclosure + smoked PC viewing door for quick status checks.
