

Fireproof Fiberglass Cable Tray Custom Manufacturer

AI Overview

Top manufacturers of fiberglass fire-resistant cable trays include MP Husky, Creative Composites Group, NewReach, NHC, and EFG Composites, offering high-strength, corrosion-resistant, and fire-rated solutions for industrial applications.

Leading Manufacturers and Their Offerings

MP Husky produces fiberglass cable trays using pultrusion technology, providing non-conductive, corrosion-resistant, and lightweight trays with ASTM E-84 Class 1 flame rating and self-extinguishing properties. Their trays are available in polyester and vinylester resin systems, suitable for environments like paper mills, refineries, and laboratories, with superior durability and low maintenance requirements.

Creative Composites Group offers Enduro FRP cable trays designed for extreme conditions, including offshore platforms, chemical plants, and water treatment facilities. Their trays are highly resistant to chemical attack, impact, and corrosion, providing a strong alternative to steel with a high strength-to-weight ratio.

NewReach specializes in fire-rated cable trays with fiberglass options coated with intumescent materials. Their products meet international fire safety standards such as ISO 834-1, EN 1363-1, and DIN 4102-12, offering up to 2-hour fire resistance at 1050°C. These trays are designed to maintain electrical and communication systems during fire emergencies, ensuring safety and compliance.

NHC (Nanjing Hypro Composites Co., Ltd.) manufactures high-quality FRP cable trays with high flame-retardant, anti-static, and corrosion-resistant properties. Their products are certified to ISO 9001, ISO 14001, and ISO 45001 standards, and they provide customized solutions for industrial and commercial applications.

EFG Composites produces ladder and perforated type fiberglass cable trays using polyester and vinylester resin systems. Their trays are fire-retardant, UV...
