

Guatemala Bridge Bend Construction Project

Overview

A new Guatemala City bridge package has been awarded. A 24 month construction period is expected for the project, which is costing. TendersOnTime, the best online tenders portal, provides latest Guatemala Bridge tenders, RFP, Bids and eprocurement notices from various states and counties in Guatemala.

TendersOnTime, the most comprehensive database for Government Tenders and International Tenders; collects information on Bridge. Bridges and Tunnels projects are announced by government departments, development authorities, infrastructure agencies, utilities, and commercial organizations through project information systems and procurement platforms. The design and build contract for Guatemala's new Belice II bridge will now be handled by construction firm Grupo Muratori. The modular superstructure rests on two 25m high piers. Pre-assembly of the 88m-long modular steel bridge began towards the end of December. At VITSA, we build bridges with quality, compliance, and vision.
