

How much does a Czech molded cable tray cost

AI Overview

Molded cable trays in the Czech Republic typically cost between \$2 and \$25 per meter, depending on material, type, and finish. Price Overview The cost of a molded cable tray varies significantly based on material, size, and surface treatment. Common materials include:

- Plastic/Polymer trays: Budget-friendly, usually at the lower end of the range (\$2–\$10 per meter), suitable for light loads and indoor use.
- Galvanized steel trays: Most common, balancing durability and cost, typically \$10–\$30 per meter.
- Aluminum trays: Lightweight and corrosion-resistant, generally \$20–\$50 per meter.
- Stainless steel trays: High-end, used in corrosive or hygienic environments, costing more than aluminum.

Coatings and finishes also affect pricing. Pre-galvanized steel is cheaper but less durable outdoors, while hot-dip galvanized (HDG) or powder-coated trays offer better corrosion resistance at a higher cost.

Local Suppliers in the Czech Republic Several suppliers and manufacturers operate locally:

- ARKYS: The largest manufacturer of wire mesh cable trays in the Czech Republic, offering a range of durable options.
- Jeetmull Jaichandlall and other suppliers: Provide competitive pricing and export options, often with bulk discounts.

Cost Considerations

- Installation: Labor costs can significantly impact the total project cost, especially for heavier metal trays.
- Order quantity: Bulk purchases often reduce the per-meter price.
- Customization: Special sizes, bends, or coatings may increase costs.

Summary For a Czech molded cable tray, expect a price range of approximately \$2–\$25 per meter, with plastic trays at the lower end and aluminum or coated steel at the higher end. For precise pricing, contacting local suppliers like ARKYS or other Czech manufacturers is recommended, especially for bulk orders or custom specifications.
