

How much does direct fiber optic cable bonding cost

Overview

Fiber optic cable installation costs average \$4,500 for most homeowners, with most installations ranging from \$1,500 to \$7,000. Fiber-optic cable materials typically cost \$1 to \$6 per linear foot, depending on fiber count and cable type. The main cost drivers include trenching or aerial deployment, materials, labor hours, and any required permits. Total Project Costs: For commercial installations, expect costs ranging from \$5,000 to \$20,000 per mile for underground projects and from \$40,000 to \$60,000 per. Armored fiber optic cables designed for direct burial cost \$6-14 per linear foot. Conduit systems add \$2-4 per foot but allow future cable additions.
