

How much does stainless steel cable tray cost in the Middle East

AI Overview

Stainless steel cable trays in the Middle East typically range from \$50 to \$250 per meter, depending on material grade, tray type, and duty rating.

Price Range and Factors

Material Grade: 304 stainless steel is commonly used for general industrial and commercial applications, while 316 stainless steel is preferred for highly corrosive environments such as coastal or chemical plants. 316 stainless steel trays are generally 20–30% more expensive than 304 due to higher corrosion resistance and alloy content.

Tray Type: Ladder trays, perforated trays, and solid-bottom trays vary in cost. Ladder trays are usually the most economical, while solid-bottom trays and wire mesh baskets can be more expensive due to additional material and fabrication complexity.

Duty Rating: Light-duty trays for networking or data cabling are cheaper, typically \$50–\$80 per meter, medium-duty trays for commercial use range \$80–\$150 per meter, and heavy-duty trays for industrial applications can cost \$150–\$250 per meter.

Finish and Coating: Stainless steel trays may come in powder-coated, epoxy-coated, or polished finishes. Coatings for chemical resistance or aesthetic purposes can increase the price by 10–20%.

Suppliers in the Middle East

DANA Steel UAE: Offers stainless steel cable trays in 304 and 316 grades, with powder-coated or hot-dip galvanized finishes, supplying UAE, Oman, Saudi Arabia, Kuwait, and Bahrain.

RS UAE: Provides 304 stainless steel cable trays and baskets suitable for industrial, commercial, and domestic wiring.

PSI and Emerald Steel Industries: Supply a wide range of cable trays including ladder, perforated, and solid-bottom types across the UAE and Middle East, with customization options for length and duty rating.

Additional Considerations

Customization: Custom lengths, bends, and accessories can increase the overall cost. Standard lengths are usually 2–3 meters,...
