

How to select the right cable tray mounting bracket

Overview

Cat5e/Cat6 cables: Use plastic P-clips, mini trunking, or cable trays with adjustable brackets. Armoured cable (SWA): Go for galvanised metal cleats or heavy-duty saddles with secure fixings. Several mounting options are available for wire mesh basket trays and cable trays, improving safety, ease of maintenance, and overall effectiveness. Wire mesh basket trays are an excellent option for a flexible and efficient cable management system. According to industry reports, well-installed brackets can reduce installation time by up to 20%. For example, if you're installing a ladder-style cable tray in an industrial facility, galvanized steel single-arm brackets often provide the ideal balance. When organizing electrical wiring and cables, choosing the right support system is crucial for both functionality and compliance with safety standards. When developing our cable support OBO can offer reliable solutions for systems, three attributes are at the routing and fastening cables securely core of what we do: efficiency, resilience- for each of these installation challenges and safety.
