

# Huawei Optical Module Price Quote

## AI Overview

Huawei optical module prices vary widely depending on type, speed, and deployment scenario, ranging from tens to several thousand USD per module.

**Overview** Huawei offers a broad range of optical modules for data centers, enterprise networks, and GPON/FTTH deployments. Prices depend on module type, interface, and transmission distance:

**SFP/SFP+ Modules:** For example, the Huawei SFP-10G-LR (10G, 1310 nm, 10 km) is available from authorized distributors with competitive pricing, often lower than similar Cisco or Juniper modules, typically in the \$50-\$150 range per unit depending on quantity and supplier.

**QSFP/QSFP28 Modules:** High-speed modules like 100GBase-SR4-MP or 400GBase-ZR QSFP-DD are used in data centers and SANs. Prices for these modules can range from \$500 to over \$2,000 per module, depending on speed, distance, and DWDM capabilities.

**CFP/CFP2 Modules:** Modules such as 200G CFP2-1546NM for long-distance links (up to 80 km) are typically priced in the \$1,000-\$3,000 range per unit.

**PON SFP Modules:** Huawei GPON, XG-PON, XGS-PON, and 50G-PON modules (Class B+, C+, C+ Pro, D) are optimized for FTTH networks. Prices vary by optical class and distance, generally \$30-\$150 per module, with combo SFP+ modules supporting multiple PON standards costing more.

**Purchasing Options** **Authorized Distributors:** Websites like GenuineModules.com and router-switch.com offer genuine Huawei optical modules with worldwide shipping and manufacturer warranties, often providing real-time pricing and bulk discounts.

**Huawei Official Channels:** Huawei's product pages list module specifications and compatible platforms, though direct pricing may require contacting sales representatives for quotes.

**Combination Packages:** Some modules are sold as part of switch or OLT interface board packages, which can affect the per-module cost. For example, CE8850-SAN switch packages include multiple 100G modules, power supplies, and fans, with pricing reflecting the full bundle.
