

Huijue Cable Tray Types

AI Overview

Huijue offers a range of cable trays in commercial and industrial series, designed for efficient cable management and durability. Overview of Huijue Cable Tray Series

Huijue cable trays are categorized primarily into Commercial Series and Industrial Series, each designed to meet different load capacities, installation environments, and cable management needs. These trays are typically made from steel or aluminum, offering corrosion resistance and structural strength.

Commercial Series

Designed for office buildings, commercial complexes, and light industrial applications. Features include easy installation, modular design, and standard load capacities. Common models include:

- Ladder-type trays: Open design for ventilation and heat dissipation.
- Perforated trays: Lightweight, suitable for moderate cable loads.
- Solid-bottom trays: For sensitive cables requiring protection from dust or debris.

Industrial Series

Built for heavy-duty applications such as factories, power plants, and large-scale infrastructure. Features include high load capacity, robust construction, and compatibility with heavy electrical cables. Common models include:

- Heavy-duty ladder trays: Support large bundles of power cables.
- Channel trays: For routing cables in confined spaces.
- Wire mesh trays: Flexible routing and easy modifications on-site.

Accessories and Fittings

Huijue also provides a range of fittings and accessories to complement their trays:

- Elbows and bends: For directional changes.
- Tees and crosses: For branching cable routes.
- Covers and lids: For protection against dust and mechanical damage.
- Support brackets and hangers: For secure mounting on walls, ceilings, or floors.

Sourcing and Specifications

Detailed specifications, including dimensions, load ratings, and material types, can be found on Huijue's official product page and verified suppliers on platforms like Alibaba. Buyers can select models based on span length, width, height, and intended cable load. Huijue cable trays are widely used in commercial and industrial projects due to t...
