

Low-price disposal of electrical distribution box shells

Overview

Municipal recycling centres (Household Waste Recycling Centres): These facilities are designed for the safe and free disposal of special waste, including electrical appliances, cables, lights, sockets, transformers, and more. They ensure correct treatment and sorting of each. Live data from OpenStreetMap (300,000+ globally mapped recycling points) + eCycling Central verified profiles Find the nearest recycling center for electronics, batteries, metals, textiles, and hazardous waste. Search by postcode, city, or use your current location. Results show address, accepted. Here's a guide to help you dispose of your electrical items responsibly. Understand E-Waste E-waste encompasses a wide array of discarded electrical or electronic devices, ranging from obsolete mobile phones and computers to large household appliances like refrigerators, as well as entertainment. Before taking any electrical item to a collection point, a few simple checks make disposal safer and prevent contamination of recycling streams. Isolate and verify: if it has been part of an installation, ensure it is disconnected and safe to handle (no live parts, no stored energy). What can we recycle?

Find our recycling units near our checkouts or in the entrance/exit areas of larger mainland* stores.
