

Moroccan Cable Tray Specifications and Prices

AI Overview

Cable tray prices in Morocco vary widely depending on material, size, and type, typically ranging from \$10 to \$100 per meter for standard trays.

Price Factors

The cost of a cable tray in Morocco depends on several factors:

- Material:** Stainless steel trays are durable and low-maintenance, often considered cost-effective over time, while PVC or aluminum trays are generally cheaper but may have shorter lifespans.
- Type:** Common types include cable ladders, wire mesh trays, cable baskets, and trunking systems. Wire mesh trays are usually less expensive than solid steel ladders.
- Size and Load Capacity:** Wider trays or those designed to carry heavier cables cost more. Custom dimensions or heavy-duty trays increase the price.
- Supplier and Brand:** Prices vary between local manufacturers and international suppliers. Some Moroccan suppliers like Brilltech Engineers and Jeetmull Jaichandlall offer competitive pricing and export options.

Typical Cost Estimates

- PVC or Aluminum Cable Trays:** Approximately \$10–\$30 per meter.
- Steel or Stainless Steel Cable Ladders:** Approximately \$40–\$100 per meter, depending on thickness and finish.
- Wire Mesh or Basket Trays:** Around \$15–\$50 per meter, depending on size and coating.

How to Get Accurate Pricing

Since prices fluctuate based on specifications and order volume, the best approach is to request quotes directly from suppliers. Platforms like Kerix, Sourcia, and local distributors allow you to contact multiple suppliers in Morocco to compare prices and delivery options.

Additional Considerations

- Installation Costs:** Labor and mounting hardware can add to the total cost.
- Maintenance and Longevity:** Stainless steel trays may have higher upfront costs but lower long-term maintenance expenses.
- Bulk Orders:** Ordering in larger quantities often reduces the per-meter cost.

By contacting suppliers directly and specifying your project requirements, you can...
