

Palestinian Low-Voltage Complete Equipment Manufacturer

AI Overview

MELEMCO, PalPower, and New Intertrade are leading Palestinian companies offering custom low-voltage electrical equipment and integrated solutions. MELEMCO Founded in 1997 in Ramallah, MELEMCO specializes in the design and production of low-voltage distribution boards and switchboards. They provide custom-built assemblies according to IEC 61439 standards, with capacities up to 6000 Amperes. MELEMCO is a certified Prisma partner of Schneider Electric, capable of producing type-tested panels up to 4000 Amperes. Their services include technical support, system integration, and cost-effective solutions tailored to client requirements, making them a prominent choice for high-quality, innovative low-voltage solutions in Palestine.

PalPower Energy & Contracting Co. Established in 2011, PalPower focuses on energy solutions including electrical generators, UPS systems, and voltage regulators. They offer a full range of services such as site visits, testing, design, installation, operation, and maintenance, executed by a team of skilled engineers and technicians. PalPower provides clients with a variety of product options through multiple agency partnerships, ensuring customized solutions for electricity supply and low-voltage system needs.

New Intertrade New Intertrade acts as a primary agent for international brands and specializes in innovative low-voltage systems and fully integrated solutions. They provide tailored solutions using the latest technology, offering expertise in system design, installation, and support. Their focus is on delivering customized low-voltage solutions for commercial, industrial, and residential applications in Palestine.

Key Considerations When selecting a Palestinian low-voltage equipment manufacturer, consider:

- Customization capabilities: Ability to design panels and switchboards according to specific project requirements.
- Standards com...
