

Price list for 36-core optical fiber cable

AI Overview

The price per meter of a 36-core optical fiber cable typically ranges from \$0.50 to \$1.50 for standard configurations, with variations depending on type, construction, and supplier.

Pricing Overview

The cost of a 36-core fiber optic cable depends on several factors including fiber type, cable construction, and environmental rating:

- Single-mode 36-core cables** for outdoor or long-haul applications generally cost \$0.50 to \$1.00 per meter for standard armored or loose-tube designs, with higher-end cables featuring reinforced jackets and moisture barriers reaching up to \$1.50 per meter.
- Multimode 36-core cables** are slightly less expensive, typically ranging from \$0.40 to \$1.00 per meter, depending on OM3/OM4 standards and indoor/outdoor suitability.
- Armored cables** with steel tape or FRP protection add 20–50% to the base cost due to enhanced mechanical protection and suitability for harsh environments.

Supplier Examples

- Hongan Group (China)** offers 36-core armored fiber optic cables suitable for long-haul and LAN installations, with pricing available upon request for bulk orders.
- Alibaba suppliers** list 36-core single-mode cables for high-capacity transmission, typically in the \$0.50–\$1.20 per meter range depending on specifications and shipping.
- IndiaMART suppliers** provide competitive local pricing, with some starting as low as ₹4–₹5.40 per meter for standard 36-core cables.

Factors Affecting Price

- Fiber Type:** Single-mode (OS1/OS2) is generally more expensive than multimode (OM3/OM4).
- Cable Construction:** Loose-tube, tight-buffered, armored, or non-armored designs influence cost.
- Environmental Rating:** Outdoor, UV-resistant, or direct-burial cables cost more than indoor PVC or LSZH jackets.
- Volume and Lead Time:** Bulk purchases (>10 km) can reduce per-meter costs by 20–40%, while custom lengths or urgent orders may increase costs.
- Compliance and Certification:** Cables meeting international standards or specialized certifications may carry a premium.

In summary, for a 36-core optical fiber cable, expect a price range of approximately \$...
