

Price of High Polymer Cable Trays in Qatar

AI Overview

High polymer (FRP/GRP) cable trays in Qatar typically range from QAR 150 to QAR 400 per meter, depending on type, size, and thickness.

Overview High polymer cable trays, commonly made from Fiber Reinforced Plastic (FRP) or fiberglass, are widely used in Qatar for industrial, petrochemical, and marine applications due to their corrosion resistance and lightweight properties. They are available in various types, including ladder trays, perforated trays, and trays with covers, with widths ranging from 50 mm to 1200 mm and thicknesses from 3 mm to 6 mm.

Price Factors The cost of FRP cable trays depends on several factors:

- Tray Type:** Ladder trays are generally less expensive than perforated or covered trays.
- Material Thickness:** Thicker trays (5-6 mm) are more durable and costlier than thinner ones (3 mm).
- Width and Length:** Wider trays and longer standard lengths (typically 3 meters) increase the price.
- Corrosion Resistance and Brand:** Premium brands like Aeron or Altura may charge higher prices for enhanced durability.
- Minimum Order Quantity:** Suppliers often require orders of 10-50 meters, which can affect unit pricing.

Supplier Options in Qatar

- A Group Qatar:** Offers FRP ladder, perforated, and covered trays with thickness 3-6 mm and widths 50-1200 mm.
- Electra Qatar:** Provides competitive pricing for various cable tray types suitable for industrial and commercial projects.
- Altura Industries:** Supplies GRP/FRP trays designed for harsh environments, including oil, gas, and marine sectors.
- Adastra WLL:** Specializes in cable mesh trays and accessories for industrial and commercial installations.

Recommendation For accurate pricing, it is advisable to contact suppliers directly with your required specifications (type, width, thickness, and quantity). This ensures you receive current market rates and potential bulk discounts. Typical prices for standard FRP ladder trays in Qatar st...
