

Prices of cable tray accessories in Sri Lanka

AI Overview

Cable tray prices in Sri Lanka vary depending on material, size, and finish, typically ranging from LKR 1,500 to LKR 10,000 per meter for standard galvanized steel trays. Overview of Cable Tray Pricing Cable trays in Sri Lanka are available in various materials including hot-dip galvanized steel, electro-galvanized steel, aluminum alloy, and fiberglass-reinforced polymer (FRP) for corrosive environments. Prices are influenced by:

- Material type:** Hot-dip galvanized trays are preferred for durability and corrosion resistance, while aluminum and FRP trays are more expensive due to lightweight and specialized properties.
- Tray type:** Ladder-type trays for heavy-duty applications cost more than solid-bottom or perforated trays due to higher load capacity and structural strength.
- Size and thickness:** Wider trays or thicker steel increase the price per meter.
- Finish and coating:** Powder-coated trays or those complying with EN ISO 1461 standards for galvanization may have higher costs.

Approximate Price Ranges

- Standard galvanized steel trays: LKR 1,500 – 3,500 per meter
- Heavy-duty ladder trays: LKR 4,000 – 7,000 per meter
- Aluminum alloy trays: LKR 6,000 – 10,000 per meter
- FRP or specialized corrosion-resistant trays: LKR 8,000 – 12,000 per meter

Suppliers and Availability

Several suppliers in Sri Lanka provide cable trays with varying specifications:

- Eastlink.lk** offers a wide range of steel, aluminum, and aluzinc trays suitable for industrial and commercial projects.
- Kiash Electricals** supplies durable metal trays designed for heavy loads and flexible layouts, suitable for power plants, telecom centers, and data hubs.
- Bianco and Ceylektra** provide hot-dip galvanized and powder-coated trays meeting international standards, ideal for harsh industrial environments.
