

Purchase of Small Distribution Boxes

AI Overview

Small distribution boxes are available in modular electrical units, compact household boxes, and stackable storage crates, suitable for various industrial, commercial, and domestic applications.

Types of Small Distribution Boxes

- 1. Modular Electrical Distribution Boxes** These are compact power distribution units designed for electrical applications. They often come in type 10 and type 11 series, offering modular designs with multiple input and output options. Features may include protective breakers, Schuko solid rubber plugs, and transparent shrink sleeving for labeling, making them ideal for industrial or commercial electrical setups.
- 2. Compact Household or Garden Boxes** Products like the Spelsberg AK 09 are suitable for domestic use, including gardens, garages, or small household electrical installations. They often include additional materials for easy installation and labeling, and can accommodate differential breakers or circuit modules for small-scale electrical distribution.
- 3. Stackable Storage and Distribution Crates** For logistics, retail, or food distribution, bale arm distribution boxes are available in small sizes starting from 15 litres. These boxes are stackable and nestable, space-efficient, and often ventilated for fresh produce. They are robust, cost-effective, and suitable for warehouse storage or transportation of small goods.
