

ROG Router Fiber Optic

AI Overview

ASUS ROG routers can support fiber optic internet through an Optical Network Terminal (ONT), offering high-speed connectivity, advanced gaming features, and Wi-Fi 6/6E or Wi-Fi 7 performance. Fiber Optic Connectivity ROG routers do not directly accept fiber optic cables. Instead, you need an Optical Network Terminal (ONT) provided by your ISP, which converts the fiber optic signal into an Ethernet signal that the router can use. To connect: Connect the fiber optic cable to the ONT and power it on. Use an Ethernet cable to connect the ONT's LAN port to the WAN port on your ROG router. Configure the router's WAN settings via its web interface, typically using Automatic IP (DHCP). Restart the router and test the connection to ensure internet access.

Recommended ROG Routers for Fiber

ASUS ROG Rapture GT-AXE16000
Wi-Fi Standard: Wi-Fi 6E, quad-band
Ports: Dual 10G WAN/LAN, 2.5G WAN
CPU: 2.0 GHz quad-core 64-bit
Features: RangeBoost Plus for extended coverage, Trend Micro AiProtection, QoS, media server support, and gaming-specific optimizations

ASUS ROG Rapture GT-AX11000
Wi-Fi Standard: Wi-Fi 6, tri-band
Ports: 2.5G gaming port
CPU: 1.8 GHz quad-core
Features: AiMesh compatibility, Gamers Private Network (WTFast), Open NAT, and dedicated gaming band for low latency

ASUS ROG Rapture GT-BE98
Wi-Fi Standard: Wi-Fi 7, quad-band
Speeds: Up to 11,529 Mbps
Ports: 2.5 Gbps Ethernet
Features: Mobile Game Mode, Gaming Port prioritization, and full Wi-Fi 7 support for ultra-fast gaming and streaming

Gaming and Performance Features
ROG routers are designed for high-performance gaming and multi-device environments. Key features include: Mobile Game Mode and Gaming Port to prioritize gaming traffic, AiMesh for whole-home mesh networking, AiProtection Pro with Trend Micro for network security, QoS and Gear Accelerator to optimize bandwidth for gaming devices.

Summary
To use a fiber optic connection with an ASUS ROG router, you must connect through an ONT. High-end models like the GT-AXE16000, GT-AX11000, and GT-BE9...
