

Rainproof and waterproof cover for electrical distribution box

Overview

Weatherproof electrical box covers seal off electrical boxes, helping them withstand conditions like heat, rain, and snow. They keep out dirt and moisture and protect from sparks and short circuits. They install onto electrical boxes in outdoor spaces like exterior walls and roof overhangs to. Global Recycled Standard (GRS) certified products contain recycled content that has been independently verified at each stage of the supply chain, from the source to the final product and meet social, environmental, and chemical requirements. [Waterproof and Secure]: With an IP65. The Leviton offering of Weatherproof Covers & Boxes comprises both 1- and 2- gang configurations that comply with the National Electric Code® (2017) Section 406. These covers accommodate Standard Toggle Switches, Duplex Receptacles, Decora®. Covers are evaluated to more demanding test requirements than a standard cover in compliance with 2014 NEC, Section 406.
