

Sales of cable trays in China and Africa

AI Overview

China dominates the cable tray market in Asia Pacific with strong growth, while Africa represents a smaller but emerging market with increasing demand driven by infrastructure development. China Market Overview China is a key driver of the Asia Pacific cable tray market, which accounts for over 40% of the global market share . The growth is fueled by industrialization, large-scale infrastructure projects, and expansion of data centers. Steel cable trays dominate due to their durability and load-bearing capacity, while aluminum and fiberglass trays are gaining traction for their corrosion resistance and lightweight properties . The market benefits from government investments in renewable energy, smart grids, and urban infrastructure, which require organized and scalable cabling systems . Ladder-type trays are the most popular, holding nearly 36–48% of the market, with perforated and wire mesh trays growing rapidly due to ventilation and flexibility advantages . Africa Market Overview While Africa is not explicitly quantified in the sources, it is considered an emerging market for cable trays. Demand is driven by infrastructure expansion, industrialization, and electrification projects, including power distribution networks, commercial buildings, and data centers . Growth is expected to be slower than in China but steady, as countries invest in renewable energy, telecommunications, and urban development. Steel remains the preferred material due to cost-effectiveness, while aluminum and fiberglass are increasingly used in coastal or corrosive environments . Market Trends and Drivers Digital infrastructure: Expansion of data centers and smart city projects in both regions increases cable tray demand . Material innovation: Aluminum and fiberglass trays are gaining popularity for lightweight and corrosion-resistant applications . Industrial applications: Manufacturing, oil & gas, and chemical plants drive demand for heavy-duty and modular cable tray systems . Regulatory compliance: Safety standards and building codes in China favor certifie...
