

Surface-mounted fiber optic box

Overview

The fiber wall outlet (also known as fiber wall plate, faceplate, or rosette box), is a compact surface mount box designed for FTTH (Fiber to the Home) networks. It serves as a termination point between drop cables and Optical Network Terminal (ONT) devices. Whether you're setting. CommScope offers a complete line of easy-to-use access terminals, copper and fiber splice closures, patch closures and accessories to speed deployment. The enclosure comes pre-loaded with adapters and offers protection for the fiber cable and connectors for indoor wall-mount. Surface mount boxes are an essential component for organizing and housing fiber optic connections in environments where space efficiency and ease of installation are key priorities.
