

# Trade in Low-Voltage Complete Sets of Equipment in South Sudan

## AI Overview

South Sudan imports significantly more low-voltage equipment than it exports, with China, UAE, and Thailand as major suppliers. Trade Overview In 2022, South Sudan exported \$1.37k worth of low-voltage protection equipment, making it a minor global exporter, with Malaysia (\$1.25k) and Rwanda (\$121) as the main destinations . Conversely, South Sudan imported \$1.13M in low-voltage equipment, ranking it 194th globally among importers. The primary sources of imports were China (\$414k), United Arab Emirates (\$176k), Thailand (\$158k), Netherlands (\$77.2k), and France (\$68.4k) . The fastest-growing import markets were China, Thailand, and France, reflecting increasing demand for modern electrical infrastructure. Market Drivers The demand for low-voltage equipment in South Sudan is driven by ongoing electrification projects, including off-grid and mini-grid initiatives supported by the World Bank and other development partners . These projects aim to expand electricity access across urban and rural areas, creating opportunities for switchgear, motor control centers, and modular low-voltage cabinets. Types of Equipment South Sudan's market includes factory-assembled modular low-voltage withdrawable switchgear, suitable for power plants, substations, industrial facilities, high-rise buildings, and residential complexes. These systems typically operate at AC 50-60Hz, rated voltage up to 660V, and comply with GB 7251.1, JB/T 9961, and IEC 439-1 standards . Key components include: Motor Control Center (MCC) cabinets with high-break molded case circuit breakers or rotary load switches Power factor compensation cabinets with manual, automatic, or dynamic control Modular, factory-assembled cabinets for easy installation and maintenance Business Opportunities Businesses looking to trade in South Sudan can leverage B2B marketplaces like AMBESA, which connect African s...
