

Venezuela has a full range of electrical distribution boxes

AI Overview

In Venezuela, official electrical distribution boxes are supplied through authorized distributors and manufacturers such as Servieleca and Circulo Electrico, ensuring compliance with local and international standards. Authorized Suppliers Servieleca is a certified distributor of HD Hyundai Electric in Venezuela, providing a full range of electrical distribution equipment, including low-voltage and medium-voltage panels, MCCBs, MCBs, RCCBs, ACBs, and VCBs. They import directly from South Korea, ensuring authenticity, factory-backed technical support, and compliance with IEC, ANSI, and IEEE standards. Servieleca also designs and assembles custom electrical panels for industrial and large-scale projects, including power distribution boards and photovoltaic systems, with rapid delivery from their inventory in Caracas (Servieleca). Circulo Electrico manufactures residential, commercial, industrial, and specialized hospital electrical panels. Their products are designed to ensure proper energy distribution, protection of connected devices, and compliance with current regulations. Circulo Electrico emphasizes high-quality standards, insulation for sensitive environments, and technical support from a specialized team with decades of experience in the Venezuelan market (Circulo Electrico). Components and Standards Official distribution boxes in Venezuela include: Low-voltage panels for homes and commercial buildings Medium-voltage panels for industrial applications Protection devices such as MCCBs, MCBs, RCCBs, ACBs, and VCBs Accessories like contactors, relays, and thermal protectors These components are selected to withstand Venezuela's environmental conditions, including high temperatures, humidity, and coastal salinity, ensuring durability and reliability (Servieleca). Supply and Installation Distribution boxes are supplied through a combi...
