

Wall-mounted communication cabinet for power systems

Overview

Definition: Double-section wall-mount cabinets are robust cabinets used for organizing large-scale networks and communication equipment. **Features:** These cabinets have two separate sections, allowing for more effective power distribution, cable management, and equipment arrangement. It integrates AC and DC power systems, intelligent monitoring units, and environmental control modules. Keep your company's essential network equipment safe in our series of wall-mounted and pole-mounted cabinets. These enclosures protect hardware from environmental and physical threats while keeping cables organized. Ideal for offices, commercial buildings, retail spaces, and small technical rooms, they enable convenient wall-mounted installation while ensuring equipment. ICEcube delivers industry-leading NEMA Cabinets and Racks designed to safeguard critical rack-mount equipment and batteries.
