

What are some Sino-European micro-module companies

Overview

Several new manufacturers have been added to the map, including Kivanc, with plans for 1.5 GW in Romania; Elite Solar's 8 GW project in Egypt; and Turkey's Sunart PV Enerji, contributing 300 MW of new. Semiconductor fabrication plants are factories where integrated circuits (ICs), also known as microchips, are manufactured. They are either operated by Integrated Device Manufacturers (IDMs) that design and manufacture ICs in-house and may also manufacture designs from design-only (fabless firms). Today, with more than 350,000 semiconductor-related firms, China is home to some of the fastest-growing chipmakers. Below, I highlight the top Chinese semiconductor companies, their market positions, core products, and cutting-edge innovations shaping the future of global technology. It maps plants that produce PV modules, cells, wafers, ingots, polysilicon, and metallurgical-grade silicon. European manufacturing. The Sinovoltaics Supply Chain Map (SSCM) - Europe for Edition 1 2025 includes several notable changes since our last report. China's semiconductor industry consists of a wide variety of companies, from integrated device manufacturers to pure-play foundries. Beijing (TDI): European semiconductor giant STMicroelectronics has announced a collaboration with Hua Hong Semiconductor, China's second-largest bespoke chip maker, to manufacture microcontroller chips in Shenzhen, South China's Guangdong Province by the end of 2025.

Article Content

Sinovoltaics Releases 2025 Europe Solar Supply Chain

Several new manufacturers have been added to the map, including Kivanc, with plans for 1.2 GW of module production and 5 GW of cell output; SC

Sinovoltaics updates solar module manufacturer

The manufacturer ranking reports from Sinovoltaics are free-to-download, global in scope, and cover solar inverter, battery energy storage and

RF Module Manufacturers

A list of the leading RF Module Manufacturers are listed here. everything RF has the largest company directory for the RF & Microwave Industry.

Overview of microelectronics production in the EU in 2025

In 2025, microelectronics manufacturing in the European Union (EU) is witnessing strong growth due to significant investments and strategic initiatives

Top 10 Semiconductor Manufacturing Companies in Europe 2025

Some of the top companies include ASML, a Dutch company known for making machines used in chip production, and STMicroelectronics, based in Switzerland and France, which produces

Sino-EU partnership paves way for sustainable,

Meanwhile, European companies have a first-mover advantage in areas including hydrogen energy. Therefore, Sino-EU cooperation can provide

Wuxi Sino-European Industrial Innovation Zone advances with high ...

It includes four major industrial cooperation sub-zones: Sino-German, Sino-Israeli, Sino-French, and Sino-Swiss. Upon completion, the innovation zone is set to attract over 100 projects from

15 Biggest Semiconductor Companies and Suppliers in

To make our list of the 15 biggest semiconductor companies and suppliers in Europe, we went over several sources, including industry reports,

Chinese, European Firms Boost Semiconductor Cooperation

Beijing (TDI): European semiconductor giant STMicroelectronics has announced a collaboration with Hua Hong Semiconductor, China's second-largest bespoke chip maker, to

Top 10 Chinese microelectronics companies

Microelectronics technology is a technology that uses semiconductors as materials and micro-processing as the main means to achieve miniaturization

Sino-EU economic relations of mutual benefit

Chinese electric vehicle companies continue to rapidly expand their market share in Europe, with more than 20 Chinese brands having entered or

Europe Semiconductor Device Companies

List of the top Europe Semiconductor Device companies based on extensive research conducted by Mordor Intelligence analysts and expert advisors that

15 Biggest Semiconductor Companies and Suppliers in Europe

In this article, we will take a look at the 15 biggest semiconductor companies and suppliers in Europe.

Semiconductor industry in China

China's semiconductor industry consists of a wide variety of companies, from integrated device manufacturers to pure-play foundries, fabless semiconductor companies and OSAT companies.

List of semiconductor fabrication plants

Semiconductor fabrication plants are factories where integrated circuits (ICs), also known as microchips, are manufactured. They are either operated by Integrated Device Manufacturers (IDMs) that design

Top 10 SiC Power Module Suppliers in China

Discover China's top 10 SiC power module suppliers revolutionizing EVs, renewables with cutting-edge semiconductor solutions.

Solar Production Equipment

In the solar sector, European companies originally played a key role in developing the production equipment needed for the mass production of solar wafers, cells, and modules. While the

"New possibilities" seen in Sino-European ties

Describing the current state of Sino-European ties, former Croatian president Ivo Josipovic said the two sides are building relationships. While

Top 10 Semiconductor Manufacturing Companies in

Semiconductor manufacturing companies in Europe are important for the global tech industry, making key parts for electronics, cars, and

Sinovoltaics updates map of European solar module

It maps plants that produce PV modules, cells, wafers, ingots, polysilicon, and metallurgical-grade silicon. European manufacturing is the focus

Chinese, European enterprises vow to deepen semiconductor ties

Attendees highlighted the meeting's role as a valuable platform for Chinese and European semiconductor companies to deepen mutual understanding, enhance trade confidence,

16 Leading Chinese Semiconductor Companies [As of 2026]

Below, I highlight the top Chinese semiconductor companies, their market positions, core products, and cutting-edge innovations shaping the future of global technology. From advanced

Sinovoltaics European & North American Solar Supply

Solar Manufacturers & Supply Chain Map: Comprehensive PV Module, cells and Wafer and Polysilicon Suppliers in North America, Europe, South East Asia, and

Solar Panel Manufacturers, PV Module Suppliers and

Solar Panel Manufacturers Supply Chain Traceability: Solar Supply Chain Maps of PV module, cell, wafer, and polysilicon suppliers in North America, EU, SE Asia

Latest Solar Supply Chain Map Europe PV Insights

Manufacturer Directory: Access up-to-date information on solar manufacturers operating in each region. Stay ahead of the curve by understanding the key players in each market.

MERICS PAPERS ON CHINA

The ability to offer more competitive prices for technology that might not be top-notch but that is good enough will put pressure on European companies in a broader set of industries, also in third markets.
