

What are some South Korean network cabinet manufacturers

AI Overview

Kore Konect is a leading South Korean manufacturer of network and server cabinets, alongside several other specialized cabinet makers across the country. Key Manufacturers Kore Konect specializes in a wide range of network and server cabinets, including wall-mounted and floor-standing models, as well as datacenter solutions. Their cabinets range from 7U to 47U, designed for optimal device protection and cabling management. They also provide structured cabling systems, UPS, and control cables for telecommunication services, making them a comprehensive provider for IT infrastructure needs. Other South Korean cabinet manufacturers include a total of 14 verified companies as of 2026, with notable concentrations in Busan, Gwangju, and Gyeonggi Province. These manufacturers produce system cabinets, server racks, and network enclosures for commercial and industrial applications. While not all companies have a strong online presence, several maintain websites and digital catalogs for product inquiries and B2B partnerships. Additional Resources Trademo provides a directory of system cabinet manufacturers and suppliers in South Korea, including shipment details, trade volumes, and trading partners, which can be useful for sourcing and market analysis. Rentech Digital and PoiData offer lists of cabinet makers with contact information, operational details, and business locations, helping identify potential suppliers for procurement or collaboration. Summary For businesses seeking network cabinets in South Korea, Kore Konect is a prominent choice, while the broader market includes 14 specialized cabinet manufacturers distributed across major cities. These companies offer a variety of solutions for server, network, and datacenter infrastructure, with options for both small-scale and enterprise-level deployments.
