

Which company offers high-quality fireproof cable trays

AI Overview

Flamro, Meka Pro, CharCoat, Hermi Solutions, and Thermocable provide professional fire-resistant cable trays and related fire protection systems. Flamro offers fire protection solutions for cables and cable trays, including FLAMMOTECT-A coatings and DG-CR 0.7 fire protection tapes. Their products are designed to prevent flame propagation and maintain the functional integrity of cables during a fire. Flamro solutions are suitable for high-rise buildings, industrial facilities, hospitals, airports, power stations, and nuclear facilities, and they provide resistance to environmental factors like UV, moisture, and chemicals (Flamro). Meka Pro specializes in fire-resistant cable support systems that are extensively tested according to EN 1363-1 standards. They offer over 1,200 fire-tested products ensuring that electrical supply remains operational during a fire. Their systems are designed to withstand load without collapsing, avoid toxic fumes, and comply with international safety standards. Meka Pro emphasizes installation by qualified personnel to ensure safety and compliance (Meka Pro). CharCoat provides passive fire protection for cables, steel, and penetrations, including firestop systems and coatings. Their solutions are used in critical infrastructure, heavy industry, and high-risk environments. CharCoat products are globally certified and trusted for circuit integrity, system resilience, and fire safety compliance in offices, airports, malls, and industrial facilities (CharCoat). Hermi Solutions offers fire-resistant cable trays for constructing safe cable paths. Their trays are available in standard or lightweight configurations and are designed for surface cable laying. The company provides guidance to select the most suitable solution for specific project requirements (Hermi Solutions). Thermocable provides ProReact Linea...
